About This Game

ABOUT THE GAME

Xilost is all about teamwork help each other to complete the mission or operation and strategy with intense firefights find your way to eliminate your enemy and make sure you leave no one behind.

STORY LINE

Set into the future, technological advancements have bloomed exponentially, creating different tools and inventions marveled by the human race. People enjoy the limitless realm of tech ideas while indiscreet, a project runs within a secret premise.

Under the institution, scientists and chemists of excellence run a controversial project, genetic alteration. DNA strains can be broken down and adhered into new formations with the help of an unnamed chemical, an invention of the geniuses. Planning to do more research beforehand before handing this chemical over to any other bodies, it was too late after uninvited personas heard of the institution and breached into it. Scientists and chemists, all unheard of since then.

Chaos struck, bursts of outrage and madness of the families of the victims accompanied with the cries of the innocents plague the city as unseen mutated creatures horde cities and villages, gruesomely killing them. It is all known by the people that this is the result of the chemical, used by terrorists to conquer the world through bloodshed.

The ignorance of the government has only made the people tougher, as they themselves work with the military teams to gather talents and experienced civilians. Together, you, the player can join Xilost to stop the madness that runs amidst the chaos. Join us, We need you.
